

SUMMER VACATION

(2023-24)

GRADE 3

*I am a child
Allow me to be me
For I can only remain in this state for so long
Give me the freedom to become who I am
For my mind is filled with Tales
My Heart is filled with Love
My mind is filled with many Joyous Riches
With all the goods that I have encountered upon
I possess the Mind of an Individual with PURITY*

Dear Parents,

The long-awaited summer vacation is here, bringing the gift of enjoyment spent exploring books, storytelling, and playing games. Besides relaxing, there should be a healthy mix of play and work. We have planned activities for the children to keep their energies well-directed and positively engaging. Punctuate their relaxed moments with constructive and creative work to enhance their confidence.

- ★ Plan for educational excursions and let the child pen down his/her learnings and experience in a diary.
- ★ Teach your child how to clean and organize their storage shelves and make them practice the same and encourage them to donate the toys, clothes, and books that they do not need anymore.
- ★ Encourage and join your child to meditate and exercise regularly to stay fit and active.
- ★ Ensure your child spends meaningful time with his/her grandparents to develop an everlasting healthy bond.
- ★ Help your child inculcate good habits through the practice of household chores.
- ★ Narrate a story to your child and ask him/ her to re-narrate it.
- ★ If possible , take them to your workplace and let your child understand that you work very hard to support their needs.
- ★ Allow them to adopt a pet dog or any animal bird or fish.

Time to learn, have fun, and grow!

Creative Tasks

Task-1

Collect different types of bird feathers from your surroundings such as parks, gardens, and grounds. Paste them on an A3-sized sheet and write the name of the bird to whom they belong.

Task-2

Make a rock painting using a rock and paints. Anything creative can be painted on it.

Task 3

Create a creature!

While you cannot travel to faraway lands hoping to find new species, you can use whatever knowledge you have about plant and animal adaptation to create your own new species. Combine features from animals you know and introduce your species to the world, sharing its physical adaptations, daily habits (behavioral adaptations), predators, and prey.

EVS

1. Save the Environment

Make your own handmade sheet by recycling old newspapers.

Material Required:

Old newspaper, water, a container, mixer, two plastic sheets, watercolor, and a roller pin.

Procedure:

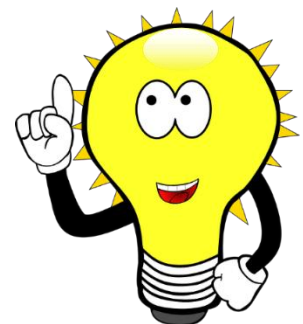

- Tear up your scrap paper into small (about one-inch) pieces and soak it in warm
- water in a container.
- After 2-3 days, take out the paper bits and blend them in a blender or mixer to make a smooth pulp.
- Add a watercolor on it of your own choice for a colourful sheet.
- Drain extra water from the pulp using a strainer.
- Place the plastic sheet on a flat surface.
- Pour your pulp mixture on it and spread the pulp well. Now, cover it with another

plastic sheet.

- Take a rolling pin and roll over it until it is thin like a chapati.
- Remove the above sheet and let it dry.
- Do not disturb the paper until it is totally dry.
- Your handmade sheet is ready. Now, use this handmade sheet to create innovative greeting cards

2. Breathing in Humans

Create a project showing how breathing in humans takes place. Show how air is taken in from the nose and travels to the lungs in our body. An example of it is shown below.
