New Delhi, India

Attention: Monika Uppal

Dear GVC Students & Teachers,

On behalf of the Give Something Back International Foundation, I wish to express my congratulations to all of you on your outstanding achievement in the 2014/15 Global Virtual Classroom Website Design Contest.

You and your teammates have been awarded the **First Place Prize** in the Secondary School Category for your website: “**Rhyme & Rhythm**”. I will be mailing to you the award plaque and the monetary award check as recognition of your outstanding accomplishments. In addition, we will provide a one-year scholarship in your name to educate a disadvantaged student.

Your creativity, collaboration, helping focus, and innovative use of technology have been demonstrated in your work and your outstanding website. I hope you enjoyed the learning experience as well as the opportunity to work with students from other cultures. We are confident that the skills you learned by working together on this project will help prepare you to be “Global Citizens” of the world as well as helping develop some of the skills you will need in the work places of tomorrow.

Once again, my sincere congratulations and best wishes for your continued success. We hope you will continue to participate in the GVC Contest in future years. [Click here](#) to register for the 2015/16 Contest, or visit the website at: www.VirtualClassroom.org.

Sincerely,

Andrew Ezzell
President
