Message from the Principal on Teacher's Day

The light of the world, the beacon in the dark and the hope that gives us strength to survive, is our TEACHER...

Today we celebrate Teachers' day, a day kept aside to honour the gifted souls who work every day to make sure that the future is bright for all their students. Let me take this opportunity to pay tribute to my teachers for their selfless efforts in shifting from physical to digital; for inspiring, motivating and preparing students to tackle the challenges of life with their wisdom, experience and patience.

I also take this occasion to reiterate the fact that overall development of any child, society or nation does not reach its pinnacle without the efforts of the first teacher in everyone's life... our Parents. I would like to thank all the parents for their unconditional love and support to the teacher fraternity, as and when, the need arose.

Once again a very Happy Teachers' Day to all the mentors... teachers, parents, friends, family who are contributing to make this world a beautiful place to live in!!
